

AAMP Seattle 2020

Integrative Immunology at the Next Level – Finding and Treating Blocks to Cure

Hilton Seattle Airport & Conference Center - Friday, Oct 9th – Sunday, Oct 11th, 2020

(18 AMA Cat-1 CME Planned) Initial Agenda Outline (Faculty and timing to be assigned)

Friday Focus: Immune Disruption – the Source of Most Chronic Illness

- Biotoxins, Mycotoxins, Chemical and Metal Toxicants: Effects on the Human Immune Response
- Brain Mapping using qEEG and other methodologies in chronic cases
- Patients to consider further testing: What presentations, what tests and when
- Chronic Inflammatory Response Syndrome (CIRS)
- The allergy / toxin / immune regulation crossover conundrum: Where do I go next?
- Immunology isn't my Strong Suit: can I leave here understanding it better so I can really help my patients?

Saturday Focus: Mold and Mycotoxin Illness – Assessment and Treatment, “A to Z”

- Patient Selection: The mold patient you “can't see”
- Diagnosis and assessment: The good and bad of testing and follow-up
- Effective treatment strategies: When herbal, versus compounded or standard Rx are required
- Troubleshooting the tough patient or the one in crisis
- Environmental testing and assessment
- Prevention: Keeping them well

Sunday Focus: Removing Blocks to Cure – More Therapeutic options

- Mast Cells and neuropsychiatric issues: NeuroQuant Imaging to locate dysregulation in mold, MCAS, EDS/dysautonomia
- Human “chemical” impediments to healing and their therapeutics: Sulfites, Oxalates, Pyrroles, Salicylates, Aldehydes, Alcohols, Ammonia and related compounds
- The gut, biofilms and other targets of therapies
- Respiratory therapies
- Specific therapies and synergy: Using therapies together for increased clinical success. Included will be nutrient supplements, Hyperbaric Oxygen, Sauna, IV and Injection overviews, Laser/PDT, Rx and other useful therapies

THERAPEUTICS:

- COMPOUNDED MEDICATIONS
- SUPPLEMENTS
- LAB ASSESSMENT
- DETOXIFICATION -DEPURATION
- BOTANICALS

- SAUNA / HEAT
- HBOT
- LASER - PDT
- DIET & NUTRIENT THERAPIES
- RESPIRATORY THERAPIES

And Others!

FACULTY

Dr. Mary Beth Ackerley is a classically trained board-certified psychiatrist. She is a Summa Cum Laude graduate of Harvard University (BA), studied at NIMH, finished her residency at Johns Hopkins and was certified in Psychiatry and Neurology. She is a co-founder and current President of ISEAI, the International Society of Environmentally Acquired Illness. ISEAI is a professional society dedicated to the teaching and researching of environmentally acquired illness.

Dr. Lauren Tessier specializes in mold-related and chronic illness. She is a nationally known speaker, writer and Vice President of the International Society for Environmentally Acquired Illness (ISEAI).

Dr. Jill Crista is a best-selling author, and nationally recognized health educator on mold-related illness. She helps people recover their health after exposure to toxic mold. Her book *Break The Mold*, provides tools for anyone wanting actionable steps to conquer health challenges related to mold exposure.

Dr. Kellyn Milani founded Remedy Health, a CIRS focused clinic in Bozeman, Montana. Dr. Milani has been treating patients with biotoxin illness and is certified in Chronic Inflammatory Response Syndrome (CIRS).

Dr. Paul Anderson is curriculum director and co-founder of Advanced Applications in Medical Practice (AAMP). He is founder of the Anderson Medical Group which includes Advanced Medical Therapies, a state-of-the-art medical center providing fully compliant IV, Hyperbaric and Mild Hyperthermia therapies and a medical education company Consult Dr. Anderson. He has participated in NIH funded research in integrative oncology and a best-selling co-author of the book "Outside the Box Cancer Therapies" with Dr. Mark Stengler. He is a well-known continuing education presenter with areas of specialty in complex clinical medicine, intravenous and injection medicine, oncology and genomics.
